

# DAILY GAZETTE

THURSDAY, AUGUST 4, 1881.

## GAZETTE CLEANINGS.

The hotels are overrun with guests. Albuquerque is now agitating incorporation.

A number of new buildings are being erected on Zion Hill.

Another police fund is being raised on the east side. Ex-Officer McIntire is the man named for Chief of Police.

A heavy rain fell in the mountains in this vicinity at an early hour yesterday morning. The Gallinas was booming all day.

The new "Rio Grande," the other new palace car recently built for the A. T. & S. F. R. R. came in yesterday for the first time.

Judge Sumner went up to Wagon Mound yesterday on business connected with putting up the new addition to the Sumner House.

Yesterday the Gallinas was a good sized stream, swollen by the rains in the mountains. It was no easy matter to ford it at the Hot Springs.

Freight on the railroad between Wallace and San Marcial is fast being moved to its destination. Yesterday 282 cars were moved between those points.

Wm. Daggart, who killed Juan Ortega and wounded another ranchman near Trinidad last week, will have his preliminary examination in that city to-day.

Last night there were four freight trains with 180 cars between Las Vegas and Glorieta ready to move as soon as word was received that Apache canyon was open.

Hon. Lorenzo Lopez, Probate Judge, requests the GAZETTE to state that he will install two policemen in East Las Vegas as soon as the citizens recommend two good men.

Mr. Matthew Beckers, the White Oaks Artist, is in town. He is doing some nice sign painting. He did some fine work for John Chisum and Capt. Lea, of Roswell, last season.

J. J. Fitzgerald yesterday drew up four mining deeds for a man just in from the Raton mountains. This gentleman claims that he has struck something good in those mountains.

Diphtheria and scarlet fever are prevalent among children in the city. Little Scott and Ella Allen and a little daughter of Mr. Smith, living in the same vicinity, are down with diphtheria.

The high water in the Gallinas brought down a number of railroad ties yesterday, washed down from the mountains. Natives embraced the opportunity of fishing them out for firewood.

The A. T. & S. F. R. R. company will present to the King of Sweden a magnificent buffalo head. It was secured by Captain Shepperd, Denver agent of the road, and has been handsomely mounted.

A ditch has been cut from the culvert just west of the St. Nicholas to the flat below. This will turn a great deal of the water that usually flows down through Center street, and will be of great value to the east side.

Railroad avenue and adjacent streets on the east side are in a bad and unhealthy condition. The water holes should be filled up and ditches cut to drain the street properly. If the rainy season lasts long these mud holes will breed all kinds of contagion.

A discharged employe of W. G. Rifenburgh of Trinidad a few days ago made a murderous assault on him at Cuchara. The fellow struck him a terrible blow over the eye with a chunk of iron that stunned Mr. Rifenburgh. The fellow escaped on a train just pulling out but jumped off before reaching Pueblo, thus escaping arrest.

The question of getting up a ball at the Springs to-night complimentary to our Chihuahua visitors is being considered. This is the proper thing to do, and if it would be taken hold of by our citizens it could be made a very agreeable affair although the time is very limited, as these gentlemen will go on south as soon as the washout is repaired.

A portion of the ice dam in the Gallinas just above the Hot Springs was carried out by high water yesterday. About half of it was washed away. Mr. C. Frank Allen, who has been making a survey for the waterworks between this city and the Springs for the Agua Fria company, reports that the water in the canyon above the Springs raised fifteen inches in twenty-four hours. This is the highest water of the season.

A few days ago a Mexican named Duran was murdered near Morley station and his wife barely escaped a similar fate. A man named Henry Boyle was arrested for the crime, but claims that at the time it happened he was on his way from Las Vegas to Trinidad. James Powers, who swears that he accompanied Boyle on that trip, recently went to Trinidad and protested against the unjust imprisonment of Boyle. No attempt has been made to secure the release of Boyle, who will remain in jail till the case comes up in the District Court.

## MEXICAN CENTRAL.

Track laying begun on the Railway to Chihuahua.

## Special to the GAZETTE.

Paso del Norte, Mexico, Aug. 2.—Track laying on the Mexican Central Railway was commenced to-day. Gov. Terrasas, Governor of the State of Chihuahua, drove the first spike in the presence of State and city officials. The Mexican military stationed at the post was on review and a throng of citizens in attendance. The inauguration of the active construction of the railway to the city of Chihuahua was the occasion of great general rejoicing. A number of speeches were made and the military band played the airs of both Republics.

## Obituary.

DIED.—In this city Aug. 3, of typhoid fever, Mrs. Julia C. Robinson wife of A. A. Robinson, aged 33 years.

The news of the death of Mrs. A. A. Robinson, wife of the Chief Engineer of the A. T. & S. F. R. R., came very unexpectedly yesterday morning. Few had any idea that the condition of this estimable lady was very dangerous. She was suddenly taken down with typhoid a few weeks ago and so alarming were the symptoms of her sickness that her husband, who had been called to Arizona on important business, was telegraphed to return as soon as possible. Till the hour of her death, Mr. Robinson had been almost constantly at her bedside. Her many friends in this city had felt encouraged that her improved condition would develop into speedy convalescence. She continued to improve till Wednesday afternoon when she was seized with suffocation but her suffering was relieved temporarily. About 5 o'clock Tuesday she became unconscious and later in the evening began sinking and it was not expected that she would live till morning. She peacefully passed away at 2 a. m. yesterday, and her spirit passed hence.

Mrs. Julia C. Robinson was thirty-three years of age, and all who knew her can testify to her lovely disposition, womanly attainments and high accomplishments. She had ever been a great comfort to her husband, who, as know, all is a man of wonderful energy and a hard worker. Robbed of her presence and good cheer, no one can form any idea of his bereavement. Her parents reside near Edgerton, Wisconsin, whither her remains have been taken for burial.

As children together, Mr. Robinson and his wife had been loving friends, and that love deepened with years and they were devotedly attached to one another.

A little daughter, Metta, in her fifth year is left motherless and is robbed of the influence and training of an accomplished and noble lady.

## It Must Be So.

The development of Southern Colorado, New Mexico, etc., by railroads, causes conjectures as to routes. In spite of mountain fastnesses, Trinidad is the objective point. For the great mover of locomotive power—coal—is here in abundance. An air line for a railroad, although the shortest, is not always the most feasible or lucrative. Barren plains hundreds of miles long are too expensive to span with iron, unless the objective points are susceptible of remunerative trade. Figure as you please, our city is in the line of approach into New Mexico and the Gulf ports of Texas from any part of Colorado north of us. The overcoming of mountain obstructions has been demonstrated by the Santa Fe road, and can and will be by other lines seeking a southern route. So let us not be afraid or over anxious, for Trinidad is here, resting on a mountain of coal, and all railroads far and near must have it. If new lines are not built immediately into our town they will come sufficiently near to build in expensive branches or obtain trackage from roads already running into Trinidad.—Trinidad News.

This is all right so far as it goes. If a line is built to Trinidad it must of necessity be built south via Cimarron and Mora to Las Vegas and then across into Texas or down the Pecos, as this is the best outlet for a road from Colorado. It would secure good local trade, enough to justify the construction of the line, and at the same time make a Gulf connection. There is also in Colfax county an abundance of coal, practically inexhaustible quantities, and it would be profitable to build a road through Long's canyon to tap it.

## A Word to Pueblo.

Our wholesale men received their first through freight rate from the Pacific coast via the Southern Pacific route on Saturday last, and they are mighty glad to get it, too. It scoops the U. P. via Denver just five cents on the hundred.—Pueblo News.

Doesn't this demonstrate that the best route to the Pacific would be over the Denver & New Orleans R. R., extended from Pueblo south into New Mexico via Las Vegas and the Pecos valley to a connection with the Texas & Pacific R'y? By this route a direct Gulf connection, as well as Pacific connection could be made. But if he Denver & New Orleans is built over the plains as proposed, besides missing good local trade, there is no outlet to the Pacific slope.

Report comes from Pueblo that the A. T. & S. F. company is taking extra precautions to guard against any "break" of a gang of train robbers who are waiting for an opportunity to rob the trains on the main line of this railroad.

## PERSONAL.

Mrs. A. Nisbet is up from Glorieta. A. B. Foster is down from Denver, Colorado.

Robert Mings, of Puerto de Luna, is in the city.

Carl Wildenstein went over to Watrous, yesterday.

G. R. Hall, of Mora, is stopping at the St. Nicholas.

J. Martin and Silas Hough, of Trinidad, are in town.

J. M. Odenheimer, U. S. deputy surveyor, is in town.

John R. Wright and Eli Williams are up from McPherson station.

L. S. Cummings, of McPherson siding, is registered at the Sumner house.

Mrs. Allen Foley and two children, of Chicago, are stopping at the Sumner house.

The father, mother and sister of Mrs. James Pratt arrived yesterday, from Durango, Colorado.

Charlie Dyer has gone down the road on another vacation. He will probably put in some hard work while away.

J. T. McNamara, of Fort Union, came over yesterday. He came by rail as heavy rains in the mountains have rendered the Sappelo impassable for teams.

Father Defouri left Denver for Santa Fe yesterday to assume the Vice Generalship of New Mexico. He has been preaching in Denver for the past year and is spoken of in the highest terms.

Mr. and Mrs. Charles Dobriner, of Kansas City are on a visit to their relatives. Mr. Dobriner and Mr. and Mrs. Leon of this city. They will remain during the warm season.

Dr. C. C. Gordon will leave us in a few days for a trial visit to Las Vegas. If he likes it well enough he will locate there. There are many persons in Trinidad who will be sorry to see the Doctor go, for he's a universal favorite as a citizen and a doctor.—Trinidad Times.

Capt. J. G. Clancy is up from Puerto de Luna. He is en route to Vermont to purchase fine sheep. Buying sheep is however not his only or principal object in going east. He has lived alone long enough and he now proposes to become a married man. Mrs. Clancy will come back with him.

## The Sad Journey.

The remains of Mrs. A. A. Robinson were taken east yesterday for burial at Edgerton, Wisconsin. The Atlantic express was stopped opposite Chief Engineer Robinson's house, and escorted by the clerks in the construction and operating departments of the railroad, the remains were borne to the train. Mr. Robinson was accompanied on his sad journey by his little daughter Metta, Miss Julia McKibbin of Topeka, who had been in attendance on the deceased during her sickness; and Clarence Wells, private Secretary of the Chief Engineer.

Mr. Manchester telegraphed yesterday morning that special car No. 90 would leave Topeka at noon to overtake the Atlantic express, in which the remainder of the journey will be completed.

Many messages of condolence were received yesterday by Mr. Robinson expressing sympathy in this season of bereavement. The clerks in the construction department and division headquarters sent their Chief a brief note of condolence. Everywhere expressions of sympathy were uttered, among railroad men in particular, were they heartfelt, if homely.

## Bouncing the Bohemians.

N. E. Stevens of the Leavenworth Times and W. S. Burke of the Kansas Farmer returned from their pilgrimage to the Mineral Hill mining district yesterday afternoon. They were accompanied by S. A. Hinrod of the Atchison, Topeka & Santa Fe Railroad, and the party met with a series of mishaps but returned enthusiastic over the indications of the camp. On the way out when about sixteen miles from this city as the team was trotting along the pole dropped, and the horses started off, upsetting the buggy and tearing loose returned to Las Vegas. Messrs. Burke and Stevens were cut about the head and somewhat bruised, while Mr. Hinrod was badly lamed, being at the bottom of the heap when the grand distribution of the contents of the buggy were spilled. All of the party consider their escape quite miraculous. They tramped the remainder of the distance to the camp and took in the district despite the pelting rain. They evidently met with a good reception and are enthusiastic over the hospitality of the boys and are unanimous in their opinion that the boys who stay by the camp will be well rewarded.

It rained very hard in the vicinity of Apache canyon yesterday forenoon, so that the work of repairing the washout was seriously interfered with. The water kept up high, but no further damage was done. It was expected that everything would be fixed up some time last night. When that portion of the road is open for travel, the Atlantic express of Tuesday that reached Lamy at 7:20 a. m. yesterday will come on and go through to Kansas City.

J. W. Love has just received a car of No. 1 choice new hay and he is selling cheaper than ever at his commission house.

## He Overdid It.

Bill Michaels, a woodchopper, is now incarcerated in the Nevada county jail awaiting trial for an attempt to murder a Chinaman. When brought to prison he said to one of the convicts, "I guess that heathen will die, so the best thing I can do is to play off crazy." Then he set up a loud howling, and for several days and nights he made the prison a pandemonium with his affected wild ravings. Now he is confined in a straightjacket, for he really is a maniac. His attempt to appear mad had such an effect upon a mind already weakened by habitual intoxication, that his mental faculties were thrown into a senseless whirl.—San Francisco Chronicle.

## HOTEL ARRIVALS.

GRAND VIEW HOTEL.  
Sam Mays, Denton, Texas; J. T. McNamara, Ft. Union; Sam Grant, Eaton.
